Clothing Prep

All clothing must be hung, free of stains, excess wear, holes, & foul odors.

Hanger should make a question mark when facing you.

For sets, hang first item first, then use safety pins to attach the second item by SEAMS behind. You could also use two hangers and rubber band them together

Accessories to an outfit like a hair bow or hat should be placed in a zip lock bag and attached to hanger with a safety pin. Be sure to list accessory on the tag.

Hanging pants: either use pant hangers, or attach to top bars of hangers with safety pins using SEAMS or waistband. Do not fold pant over hanger

ATTACHING TAGS: attach tags to right side of the item if facing you IN A SEAM or in the tag at neck using tagging gun or safety pin. Placing the pin through the front of the item and not in one of these areas will result in holes and damage the item and we will not be able to sell it.
